Reference Docket #96N-0420

To Whom Concerned,

In the interest of information for "New Drug Labels",
it is my concern that ingredients be truthfully de-
clared.

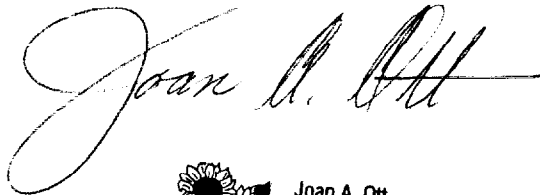

Most drugs that I have had to inject declare only the
active ingredient. Since many capsules, tablets and
liquids are color coded - there should be a right to
know what colors are used.

Speaking for myself and knowing of others, there are
allergic reactions to color ingredients of which can
be devastating to the individual.

In the Public interest and care, please have the
essential information open to the public and print
enlarged and readable for the aged, not abbreviated.

Thank You.....

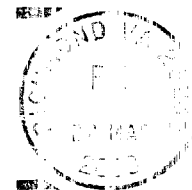

Sincerely,

Joan A. Ott
